REFEREES

Available on request

PROJECTS

- Front-End Development

I created a webinar page from the specifications of the UI/UX team where visitors of the site can find and watch introductory videos on each career course to guide them through choosing the Tech career that best suits them. I also linked the webinar page to the homepage of the website. The website was deployed on Netlify.

Website: <https://upbeat-dubinsky-82a598.netlify.app/webinar.html/>

- Front-End Development

I created a responsive landing page for an online storage website with a two column layout. The website was

Deployed on Vercel.

Website: <http://road-to-react-codemaestro02.vercel.app/>

My other front-end personal projects can be viewed [here](#).
